# Teaming Website

**Step #3:** Fill out all the fields completely and click **“Join.”**

The screenshot shows a Mozilla Firefox browser window with the address bar displaying `https://www.davincinetbook.com/teams/User_Profile.asp`. The page title is "BAA & Program Teaming Site". The main content area is titled "Editing My Profile" and contains a form with the following fields:

Your Personal Information...	
First Name	James
Last Name	Randal
Login	
Password	

Your Organization's Information...	
Organization Name	Booz Allen Hamilton
Organization POC	
Organization Phone	703-607-2784
Organization Fax	703-610-5444
Organization Email	randal_james_w@bah.com
Organization Address1	2811 North Fairfax Drive
Organization Address2	Suite 800
Organization City	Arlington
Organization State	VA
Organization Zip	22205
Organization Country	USA
Organization Url	www.boozallenhamilton.com

At the bottom right of the form, there are two buttons: "Join" and "Cancel". A red arrow points to the "Join" button. The text "Click 'Join'" is written in blue above the arrow.

At the bottom of the page, there is a footer with the text "BAH and Program Teaming System" and "Version 0.9.3".

# Teaming Website

**Step #4:** You will be redirected to the login page. Enter your username and password and click **“Login.”**

**Step #5:** Select **“BAA08-40”** from the drop down menu; fill out **“Your Expertise”** and **“Expertise You Need.”** Click **“Add.”**

The screenshot shows a Mozilla Firefox browser window with the URL [https://www.davincinetbook.com/teams/User\\_Associate.asp](https://www.davincinetbook.com/teams/User_Associate.asp). The page title is "BAA & Program Teaming Site". The user is logged in as "jwrand". The form contains the following fields:

- Team:** A dropdown menu with the selected value "BAA08-40, Self-HEALing mixed-signal Integrated Cir".
- Your Expertise:** A text area containing "test".
- Expertise You Need:** A text area containing "test".
- Comments:** An empty text area.

At the bottom right of the form, there are two buttons: "Add" and "Cancel". A red arrow points to the "Add" button with the text "Click 'Add'" next to it.

At the bottom of the page, there is a footer with the text: "BAA and Program Teaming System Version 0.9.3" and a link to "Contact The System Administrator". Below this, a disclaimer states: "Specific information content, communications, networking, and team formation are the sole responsibilities of the participants. This website is provided consistent with the stated purpose of the subject announcement."

# Teaming Website

BAA Number	Description
BAA 07-18	<b>Microsystems Technology Office-Wide BAA</b> Open Date: 1/15/2007 Close Date: 1/14/2009 The Microsystems Technology Office's (MTO) mission is to exploit breakthroughs in materials, devices, circuits, and mathematics to develop beyond leading edge Microsystems components with revolutionary performance and functionality to enable new platform capability for the Department of Defense. To execute this mission, MTO supports revolutionary research in electronics, photonics, MEMS, algorithms, and combined Microsystems technology to deliver new capabilities to sense, communicate, energize, actuate, and process data and information for the war fighter. For questions pertaining to BAA 07-18, please email <a href="mailto:baa07-18@darpa.mil">baa07-18@darpa.mil</a> .
	<b>TRUST in Integrated Circuits (TIC)</b> Open Date: 3/7/2007 Close Date: 3/7/2008 Largely because of global economic pressures, the development and fabrication of advanced ICs is migrating offshore. In addition, commercial, rather than military, demand is increasingly driving business models. Dedicated facilities (National Security Agency [NSA], Sandia, Honeywell, etc.) cannot provide the performance, variety, and volume of ICs at the cost the Department of Defense (DoD) needs. These trends have raised concerns regarding U.S. weapons systems' reliance on high-performance ICs and the potential vulnerabilities of

**DOD PKI Frequently Asked Questions (FAQs)**

**1. Why do I need to install root certificates?**  
Root certificates are installed on each user's workstation to establish a chain of trust that validates all of the DoD PKI certificates that have been issued.

**2. What are the system requirements?**  
The minimum system requirements are:  
• Internet Explorer 5 with the 128-bit Encryption Patch  
• Netscape 4.75 (128-bit encryption) with the Personal Security Manager v. 1.2 or 1.4.

**3. How do I install the DOD PKI root certificate for Internet Explorer browser?**

**Microsoft Environment:**  
• Follow instruction as outlined in the Installation Method 1 and can be found [HERE](#).

**Non-Microsoft Environment:**  
• Download a certificate file from <http://www.tfims.darpa.mil/dodpki.asp> and then import it into your browser.

Done

# PKI Process

**Step #3:** Email [BAA08-40@darpa.mil](mailto:BAA08-40@darpa.mil) with confirmation of PKI installation.

BAA Number	Description
BAA 07-17	<b>Photonic Analog Signal-Processing Engines with Reconfigurability</b>  Open Date: 1/24/2007      Close Date: 11/24/2008  DARPA is soliciting innovative research and development (R&D) proposals in the area of Photonic Analog Signal Processing Engines with Reconfigurability (PhASER). The overall goal is the creation of novel Photonic Integrated Circuit (PIC) elements, and associated programmable filter array concepts, that enable high-throughput, low-power signal processors which overcome the limits of conventional Silicon-based DSP technology. PhASER technology will be an enabler for anticipated future applications that have ultrahigh throughput sensor signal processing requirements, but are highly constrained in size weight and power (SWaP). DARPA envisions that successful PhASER programs will establish PIC technology as a scalable platform for signal processing applications requiring greater than Tera-operations per second (TOPS) per Watt (W) of effective computing throughput. A key element of the new PhASER PIC technology will be programmability. Programmable PICs will enable, within one technology platform, circuits that are flexible and scalable enough to synthesis filters whose characteristics are specific to a variety of applications, and which may also be reconfigured at real-time rates for anticipated applications that require adaptive filter characteristics.

Change Password

# Changing Temporary Password

**Step #3:** Enter username, temporary password, and new password. User's new password must have at least 8 characters, an upper and lower case, and at least one numeric or special character. Select **"BAA 08-40"** then **"Update."**

The screenshot shows a Mozilla Firefox browser window with the address bar displaying `https://www.tfims.darpa.mil/baa/proppwchange.asp`. The page title is "Change Password - Mozilla Firefox". The browser's address bar contains the URL and a search engine icon. The page content includes the DARPA logo, the heading "BAA Submission System", and a navigation menu with options: Home, Log-in, Request an Account, Change Password, Comment, and Log-out. The main heading is "Change Password" with a sub-heading "Current Date: 6/16/2008 5:00:25 PM". Below this is a form with the following fields: Username (text input), Temporary Password (password input), New Password (password input), Confirm New Password (password input), and BAA Number (dropdown menu showing "BAA 08-40"). An "Update" button is located below the BAA Number field. A note below the form states: "NOTE: Passwords must contain minimum of eight characters, upper/lower case, and have at least one numeric or special character". Below the note is a box containing the text: "For technical support please send questions to [TFIMS-BAA@darpa.mil](mailto:TFIMS-BAA@darpa.mil)". Below this box is a section titled "NEW REQUIREMENT:" followed by the text: "PKI client-side certificate installation. The certificate must be installed prior to receiving your BAA account information. Please click [HERE](#) for more information." The browser's status bar at the bottom shows "Done" and the URL `www.tfims.darpa.mil`.

Done [www.tfims.darpa.mil](https://www.tfims.darpa.mil)

# Uploading a Document

**Step #3:** Open your zipped file. Files must be zipped and encrypted using Winzip or PKZip with 256-bit AES encryption. Refer to the link on <https://www.tfims.darpa.mil/baa> for directions on how to zip and encrypt files.

The screenshot shows a Mozilla Firefox browser window at the URL <https://www.tfims.darpa.mil/baa/BAAUploadInfoA.asp>. A 'File Upload' dialog box is open, displaying the file 'Abstract\_Booz Allen Hamilton.zip' selected in the 'HEALICs BAA 08-40' folder. The 'File name' field in the dialog shows 'Abstract\_Booz Allen Hamilton.zip' and 'Files of type' is set to 'All Files'. The 'Open' button is highlighted. In the background, the web page shows a 'Browse...' button and a 'Your Submission' table with columns for 'Filename When Submitted', 'Upload Date', and 'File Size'. A red warning message is visible: 'BE SURE TO FINALIZE IT BUTTON FROM THE TOP'. Below the warning, there are instructions: 'The BAA tool will only accept files with a .zip extension. The maximum file size for upload is 75 megabytes, and the BAA tool will enforce this rule not allowing you to upload any file larger than that size. If your file exceeds 75 megabytes, please contact the BAA mailbox for further instructions. File must be zipped and encrypted using Winzip or PKZip with 256-bit AES encryption. The password used to zip and encrypt your proposal must be emailed to the BAA mailbox, using the DARPA provided form which can be downloaded from the website (https://www.tfims.darpa.mil/baa/), concurrent with and separate from the proposal submission. Note the word "PASSWORD" must appear in the subject line of the email. \* Required field'.

Click **“Final Submission”**

# Uploading a Document

**Step #6:** User will receive an email from BAA08-40@darpa.mil confirming receipt of the final submission. If you do not receive this email, assume the submission *did not* finalize and double check that you clicked “Final Submission” on the previous page. Contact the BAA coordinator at [BAA08-40@darpa.mil](mailto:BAA08-40@darpa.mil) if you still do not receive an email confirmation.

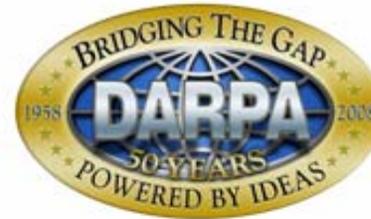

# Uploading a Document

**Step #7:** Fill out the encryption password form completely. This form can be downloaded from <https://www.tfims.darpa.mil/baa/>.

## Encryption Password Form

Last Name : Randall  
First Name : Jessica  
Company/Business Name : Booz Allen Hamilton  
BAA Number : 08-40  
Control Number :   
Title of the Effort : Booz Allen Hamilton Support to DARPA/MTO  
Contact Phone Number : 703-807-2784  
\*Encryption Password :

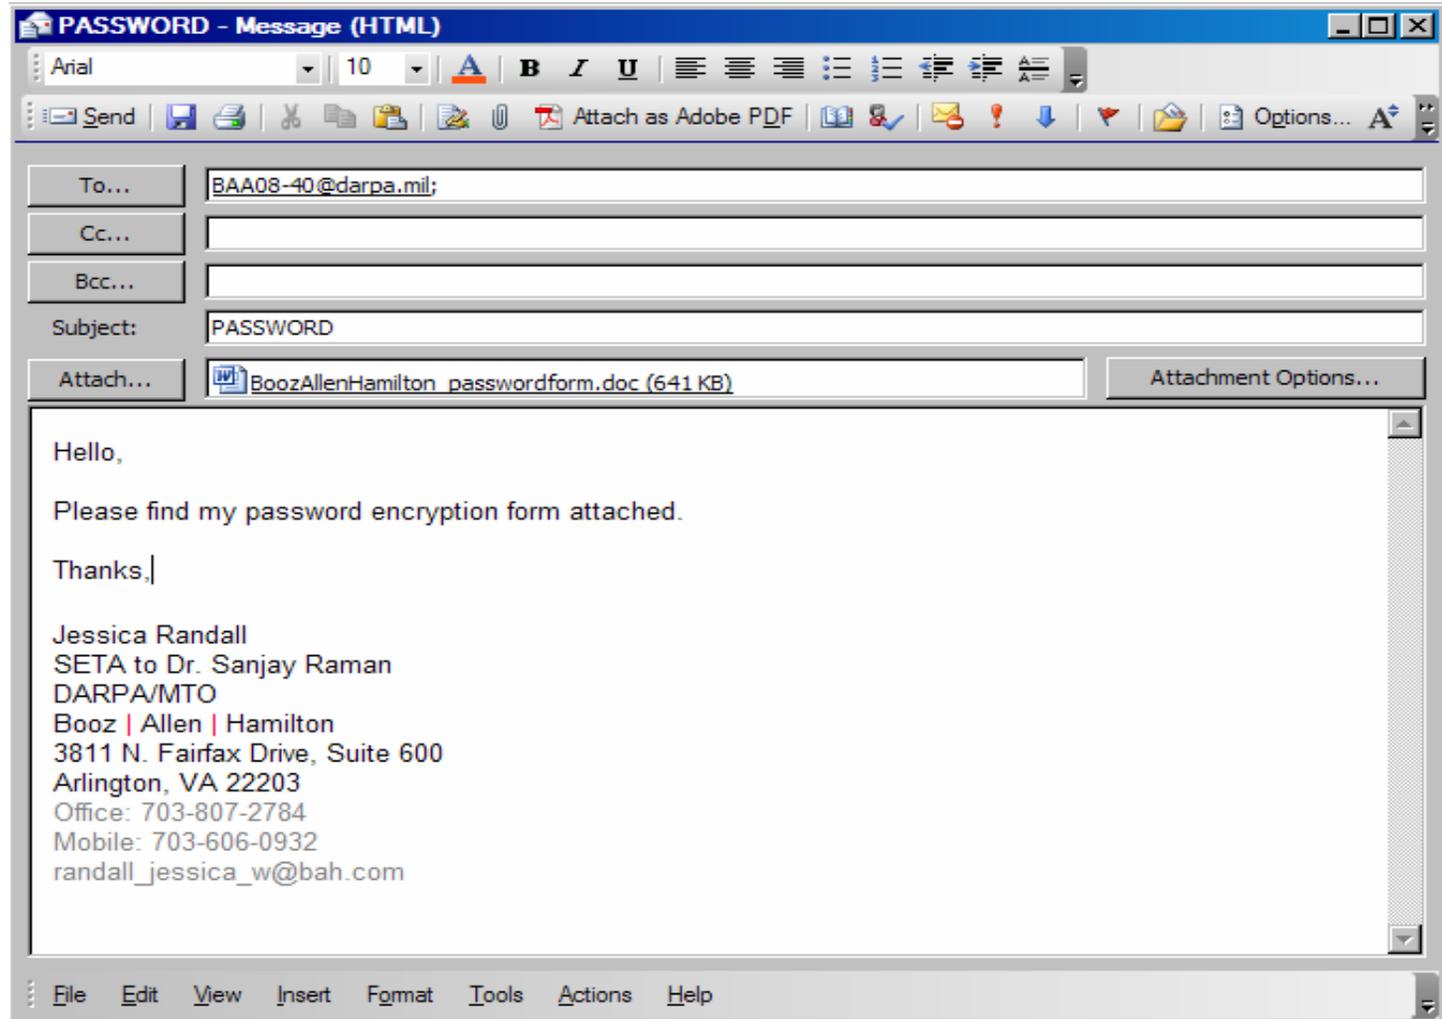

\* *The encryption password provided must be different than the BAA account password.*

# Uploading a Document

**Step #8:** Email the encryption password form as an attachment to [BAA08-40@darpa.mil](mailto:BAA08-40@darpa.mil).  
The subject line of the email must read: “**PASSWORD.**”
